

Add Deferit to your invoice!

Option 1

UPDATE YOUR INVOICE TEMPLATE YOURSELF

1. Choose from Deferit images options provided in this kit
2. Place image on template
3. Save changes and start printing!

Option 2

SEND INSTRUCTIONS TO CONTACT WHO MANAGES BILL TEMPLATE

1. Draft email (see example below)
2. Attach preferred image option

Drafted Wording

We would like to add a new asset into our invoice template. The goal is to let our customer base know about a Bill Now Pay Later platform (www.deferit.com.au) that they can use to split up their bill payment into four instalments. I have attached the asset(s) that need to be added to the template design.

If possible, we would prefer if you placed the asset in the payment options section of the invoice or next to the bank transfer details.

Need some extra help?
